

### Fishing Boat

During the next half term we will be using the Lighthouse Keeper stories as our focus for learning. In Design and Technology the children will be making a model of a fishing boat. Your child will need two empty cereal boxes (size between 320g and 750g) to build their model. Please send them into school

during the week beginning 22nd of April (not before, thanks!). We will provide everything else for the model.

Thanks

Mrs Baarda and Miss Yorke.
